Introducing Efficasafe: a new interaction database, coming soon to your BANT Member benefits!

Free & Live BANT Webinar with Gil Pinchuk, Founder and CEO of Efficasafe

Hello there,

We are excited to share a LIVE webinar, Friday 14th February 12:00–1:00 PM, to introduce **Efficasafe: a new Herb-Drug-Supplement interaction database, coming soon to your BANT Member benefits!**

BANT is committed to helping members practice safely, legally and ethically with confidence, both in clinical practice and the wider field of nutrition.

We seek to continually add value to your BANT membership by providing unique benefits and discounts, alongside access to interactions databases, and the latest science to support you in practice.

New to 2025, we are introducing Efficasafe - **an interaction checker platform that contains the world's most comprehensive information on interactions between herbs, supplements, and drugs, alongside a host of advanced features such as optimisers, real-time updates, the ability to save client details, and more** – which has recently launched as a contender to the Natural Medicines Database (NMD).

Efficasafe promises to deliver a range of upgrades to the NMD however, we believe that BANT members are best placed to test and assess Efficasafe and help us decide whether BANT pursues a long-term partnership with this platform.

Please note: we have to manually approve webinar registrations. Please be patient – you will receive a link to join the webinar in plenty of time before the live event. We are unable to guarantee approval of registrations if made within one hour of the start time. When registering, **please always include your BANT membership number** which is available from your BANT dashboard. This speeds up the approval process. **In future, any registration without a BANT number will be considered invalid.**

When will you be able access Efficasafe?

Work is currently underway to integrate Efficasafe into your members portal and we aim to launch early March.
